DGTron Energy Hub: Terms and Conditions of Service

- 1. Warranty Support:** DGTron provides a one-year warranty on all products, covering repairs or replacements for manufacturer defects.
- 2. Non-Warranty Repairs:** Repairs or replacements for issues unrelated to manufacturing defects, including physical damage or unauthorized connections, will be at the customer's expense.
- 3. Post-Warranty Service:** After the one-year warranty period, maintenance services are available for a fee.
- 4. Product Exchange:** Exchanges within the warranty period are possible based on availability and condition, with any cost differences covered by the customer.
- 5. Transportation & Installation:** Transportation, delivery, and installation services will incur applicable charges.
- 6. Warranty Voidance:** Any attempt to open or tamper with DGTron products voids the warranty, and all associated costs will be the customer's responsibility.
- 7. Additional Materials:** Extra materials beyond the original quote will be billed separately.
- 8. Acceptance of Terms:** Acceptance of the proforma invoice and payment signifies acceptance of these terms.
- 9. Payment Policy:** A 100% deposit is required for equipment, with 50% upfront for installations. The balance is due upon completion.
- 10. Turnaround & Modifications:** Installations are completed within 3-7 days. DGTron may make minor technical modifications to improve products.
- 11. Quotation Validity:** Quotations are valid for seven days due to exchange rate fluctuations affecting solar modules and batteries.

Thank you for choosing DGTron Energy Hub. We are committed to providing you with reliable and innovative energy solutions.
